

PROFILE OF GENERAL ECONOMIC CHARACTERISTICS

Source: 2006 and 2005 American Community Survey: 2000 Decennial Census

Prepared By: Northern Ohio Data and Information Service, Maxine Goodman Levin College of Urban Affairs, Cleveland State University, <http://nodis.csuohio.edu> 216.687.2205

Notes

- 2006 ACS and 2000 Decennial Census characteristics do include group quarters population. 2005 ACS data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters
- The Census Bureau advises caution in comparing income from the 2000 Census to the 2005 and 2006 ACS incomes because of design and other method differences in the surveys. In one study, the ACS method yielded a national median household income that was 4.6 percent smaller than the 2000 Census method. See Kirby G. Posey, Edward Weinik, and Charles Nelson, "Income in the American Community Survey: Comparisons to Census 2000." American Statistical Association Meetings, San Francisco, California, August 2003 (http://www.census.gov/acs/www/Downloads/ACS/ASA_nelson.pdf).
- Income fields from the 2000 Decennial Census and 2005 ACS have been inflated to 2006 Annual Dollars using the U.S. Consumer Price Index (CPI) Research Series (CPI-U-RS).
